Profile

Junior IT professional and certified Web Developer (ORT University Uruguay) currently completing a Programmer Analyst degree, with a clear path toward a Bachelor's in Systems. Strong foundation in software development, REST APIs, databases, and testing — built through 6 end-to-end projects delivered in Agile/Scrum teams. Fast, self-driven learner with proven discipline, a problem-solving mindset, and effective communication in Spanish and English. Seeking a first professional role in software development, QA/testing, or IT support where I can add value from day one and grow long-term.

Core Strengths

Fast Learner · Proactivity · Teamwork · Effective Communication · Results-Oriented · Problem-Solving · Attention to Detail · Adaptability · Self-Taught Mindset

Education

ORT University Uruguay , Web Developer (Programador Web) - Degree obtained: May 2026 - Backend development, software architecture, databases, web applications	Jan 2023 – May 2026
ORT University Uruguay , Programmer Analyst (Analista Programador) Currently finishing — continuing toward B.Sc. in Systems	Mar 2026 – present
Liceo N°1 Tacuarembó , High School Diploma — Engineering Orientation	Jan 2020 – Dec 2022

Certifications

GeneXus 18 Junior Analyst - Score: 75% (minimum passing: 60%) - Certified by GeneXus Training	Mar 2026
Cambridge English B2 — First Certificate - Advanced English certification - Certified proficiency in reading, writing, listening, and speaking	

Technical Skills

Languages: Java, C#, JavaScript, SQL, HTML5, CSS3
Frameworks: Spring Boot, .NET, ASP.NET MVC, React, Vite, Bootstrap, Entity Framework
Databases: MySQL, SQL Server, MongoDB — schema design & normalization
QA & Testing: API testing (Postman), Swagger, manual endpoint validation, edge-case debugging
Tools: Git, GitHub, IntelliJ IDEA, VS Code, Maven, REST APIs, MVC Architecture
Methodologies: Agile, Scrum, version control workflows, SDLC fundamentals
Cloud: AWS Academy, Microsoft Azure (fundamentals)
Languages (Spoken): Spanish (Native) · English B2 — Cambridge Certified · Portuguese (Basic)

Projects

Objective Tracker Dashboard

2025

- **Stack:** Java · Spring Boot · React · Vite · MySQL
- Architected a multi-tier REST API with 5+ endpoints and full CRUD — zero critical bugs at final review
- Built an interactive React dashboard with per-user performance charts
- Worked in a 3-person Scrum team with daily standups and Git branching

Sports & Athletes Management System

2025

- **Stack:** C# · ASP.NET MVC · .NET · SQL Server · Swagger
- Designed a normalized SQL Server schema (4+ entity relationships) and documented the full API contract with Swagger
- Implemented role-based access and resolved 8 edge-case bugs through Postman testing — 100% pass rate at instructor review

Food Inventory & User Management

2024

- **Stack:** JavaScript · HTML5 · CSS3 · Geolocation API
- Delivered a complete authentication flow (register, login, error handling) with real-time geolocation
- Fully responsive, no frameworks

Toll Management REST API

2025

- **Stack:** Java · Spring Boot · Swagger · Maven
- Built a clean layered architecture (Controller → Service → Repository) with Swagger docs and correct HTTP semantics

Library Book Rental System

2024

- **Stack:** Java · TADs · Stacks · Queues · Algorithms
- Implemented rental and availability logic using advanced data structures and custom sort/search algorithms

EGA Transport Corporate Website

2024

- **Stack:** HTML5 · CSS3 · Responsive Design · Flexbox · Grid
- Designed and deployed a fully responsive corporate website for a transport company
- Mobile-first approach, cross-browser compatible
